## Colt RAMA reflex sighting system red-dot scope

Note: I've only seen four of these RAMA scopes come up for sale in the past three years as of 2022. They are extremely rare because not many were sold by Colt. The scope was specified by Colt as being bundled with the R6004 AR-15 Sporter (SP1), proof posted below.

The RAMA scope civilian R6004 -listed as bundled with Colt AR-15 rifles:

R6004	AR-15 Sporter (SP1; Bundled with Colt Reflex Sighting System)
-------	---

First shown in the 1982-83 Colt Catalogs

Colt logo, top of scope, on-off switch

(2) RL-50 batteries (obtained via AMAZON in 2021)

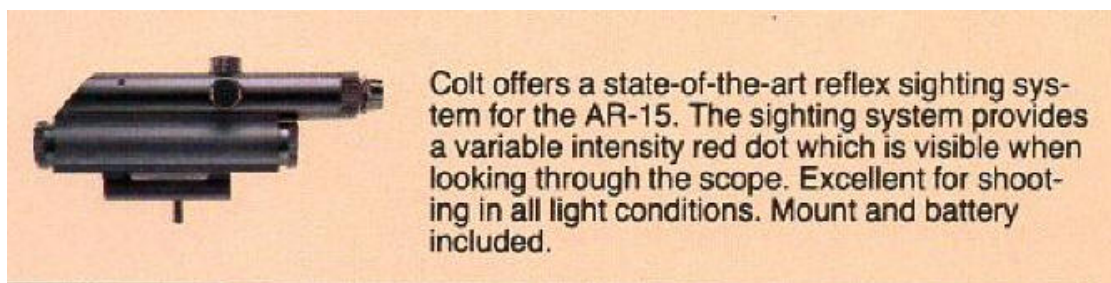

Mount clamp assembly

The RAMA scope first shown the 1982/3 Colt catalog and mounted backwards!

The RAMA scope as shown for the last time in the 1983-85 Colt Catalogs

## Colt Rifles and Accessories

**AR-15 Sporter**  
A Semi-Auto version of the U.S. Military's M16 rifle. Lightweight, rugged and easy to maintain and handle. Chambered for .223 Rem, it's ideal for police, ranchers, varmint hunters and military buffs. 20" barrel; 2, 5 round magazines and cleaning kit provided.

**AR-15 Sporter with collapsible buttstock.**  
Compact carbine version of the AR-15, featuring collapsible buttstock, and redesigned forearm with 16" barrel. 2, 5 round magazines and cleaning kit provided.

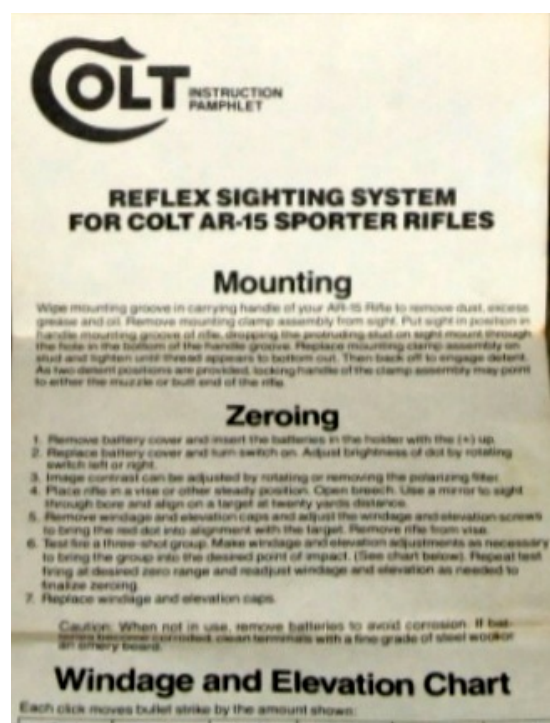

3X and 4X scopes are available for the AR-15 rifle. Scopes can be mounted in seconds, without the need of special tools.

Colt offers a state-of-the-art reflex sighting system for the AR-15. The sighting system provides a variable intensity red dot which is visible when looking through the scope. Excellent for shooting in all light conditions. Mount and battery included.

Correct Colt RAMA box and paperwork

It would appear that 'Tasco' was the original maker of the Colt RAMA scope  
This example below showed up on an antiques website in Italy
